Date: September 20, 2026
Project: 28-User Cloud CRM Implementation, Migration & Support
Prepared For: Lone Star Property Management LLC
Client: 32 employees, managing 480 rental units across Conroe, Montgomery & Austin markets

PAGE 1: EXECUTIVE SUMMARY & PLATFORM OVERVIEW

1.1 Project Introduction:

SalesNest CRM Pro is a modern, all-in-one cloud-native CRM purpose-built for SMB service businesses. This proposal presents a low-code, high-automation architecture designed to centralize leasing, maintenance, tenant communications, and sales pipeline within a single tenant-isolated cloud instance.

This bid prioritizes rapid deployment, intuitive UI, and predictable per-user pricing with minimal IT overhead. The system is hosted on AWS US-East-2 (SOC 2 Type II, ISO 27001) with 99.9% uptime SLA and multi-AZ redundancy.

1.2 Technical Specifications & Core Platform:

- Platform Architecture: 100% multi-tenant SaaS on AWS, Kubernetes-orchestrated microservices, React frontend, PostgreSQL backend.
- User Licensing: 28 named users included (Sales: 12, Property Managers: 8, Maintenance Coordinators: 5, Admin: 3), scalable to 50 users without infrastructure change.
- Data Storage: 500 GB pooled storage included (contacts, files, emails, activity logs) with \$0.20/GB/mo overage.
- Core Modules Included: Contact & Account Management (unlimited contacts), Lead & Deal Pipeline (10 customizable pipelines, up to 15 stages each), Calendar, Task & Activity Tracking, Quote & E-Signature, Basic Reporting Dashboard (25 prebuilt reports).
- Mobile Access: Native iOS & Android apps with offline mode, push notifications, geofenced check-ins for field staff.

PAGE 2: CUSTOMIZATION, AUTOMATION & AI

2.1 Customization & Configuration:

- Custom Objects: Up to 5 custom objects included (e.g., Properties, Units, Work Orders) with drag-and-drop builder. Additional objects \$49/mo each.
- Custom Fields: 150 custom fields per standard object, 75 per custom object. Field types: text, picklist, date, formula, lookup.
- Page Layouts & Roles: 8 role-based page layouts, granular FLS (field-level security) with 6 predefined roles + 2 custom roles.

- No-Code Workflow Automation: Visual flow builder with 25 active workflows included, 15 approval processes. Triggers: create, update, time-based. Limits: 500 automation executions per user/month pooled.

2.2 AI & Productivity Features:

- SalesNest AI Assistant (Included): Email draft generation, call summary transcription (via integrated dialer), lead scoring (basic ML based on engagement & source), and next-best-action suggestions for deals.
- AI Limits: 1,000 AI credits / month pooled (1 email draft = 2 credits, 1 call summary = 10 credits).
- Chatbot: Web-to-lead chatbot with 2 playbooks included, handoff to live agent.
